ALGO TRADING

We are thrilled to announce the highly anticipated launch of our managed account facility, catering to the overwhelming number of subscriber requests. This new offering allows you to open an account in your own name using IBKR, providing you with a seamless and personalized investment experience guided by the renowned Boom Bust Signal.

With the managed account facility, your account will be hosted at IBKR and diligently overseen by Infinity Capital Management LTD (ICM). As a regulated entity under the FCA, you can trust that your investments are in the hands of a reputable and compliant organization. The execution of trades will be expertly handled by ICM, ensuring a high level of professionalism and precision.

One of the key benefits of having your account at IBKR is the daily liquidity it provides. The assets within your account are highly liquid, enabling you to access your funds promptly and efficiently. Additionally, you will have the advantage of accessing daily and real-time liquidity information, empowering you to make informed decisions about your investments.

To further safeguard your investment, the account will be exclusively in your name. This means that you will have full control over withdrawals and deposits, giving you complete autonomy over your funds. Your financial security and peace of mind are of utmost importance to us.

We are initially launching the managed account facility with a minimum investment requirement of \$500,000 for "Accredited Investors" and \$5 millions for "Institutional Investors" only.

We sincerely appreciate the trust and confidence you have placed in us, and we are excited to embark on this new chapter together. The managed account facility is designed to provide you with enhanced investment opportunities and a tailored approach to wealth management. We look forward to assisting you in achieving your financial goals with our esteemed Boom Bust Signal strategy.

We are pleased to offer you a range of strategies tailored to meet your investment needs within our managed account facility, specifically for accounts with a balance between \$500,000 and \$10 millions. You will have the option to choose between two distinct strategies:

- A) The first strategy involves allocating your funds entirely to US treasuries. When a signal is generated by the Boom Bust Signal, the funds will be strategically invested in the designated asset class based on the signal received.
- B) The second strategy involves an equal distribution of funds across the 12 asset classes outlined in the Boom Bust Signal. The weightings of each asset class will be adjusted according to the signals produced, allowing for dynamic allocation that reflects market conditions and the performance of each asset class.

For managed accounts exceeding \$10 millions, we recognize the importance of tailored asset allocations that align precisely with your unique investment objectives. As such, we will engage in thorough discussions and collaborate closely with you to determine the most appropriate asset allocation strategy based on your preferences and goals.

To ensure transparency and fairness, our management fee for all managed accounts will be set at 0.5% (50 basis points) of the total assets under management. This fee covers the comprehensive oversight and management of your portfolio, including monitoring market conditions, executing trades, and providing ongoing support.

In addition, we implement a performance fee of 25% to align our interests with yours. This fee is calculated based on the net profits generated by your account. It serves as an incentive for our team to consistently strive for superior performance, as we are only rewarded when your investment achieves positive results.

IBKR's extensive global presence enables us to cater to investors across various regions, including Europe, the USA, Asia, and the Middle East. We are committed to providing accessibility to our management account facility for all our valued subscribers worldwide.

If you are interested in taking advantage of this exciting opportunity, you can contact us via email at info@TheBoombust.com.
